

# Staking Map: JOHNSON CREEK AREA

## Remote Recreational Cabin Site Area No. 11090

This staking map is for graphic representation only and is not intended to be all-inclusive. It is intended to be used as a guide only, and may not show the exact location of existing surveyed parcels or show all easements and reservations. Source documents remain the official record and should be reviewed prior to staking. Monuments found in the field take precedence over the graphic record. All Alaska State Land Surveys (ASLS) have survey monuments at each parcel corner, which can be used as reference points when staking. See the survey plats for information on corner numbers, bearings and distances.

**Notes:**

Maximum parcel size 20 acres.  
 Minimum parcel size 10 acres.  
 Staking authorizations: 45.  
 Staking period: 9-27-02 to 1-27-03.  
 All parcels staked on lands owned by the State of Alaska that contain land within 50 feet of a surveyed or protracted (unsurveyed) section line, or that are bisected by such section line(s), are subject to a 50-foot wide easement on each side of the section line, which is reserved to the State of Alaska for public highways under AS 19.10.010.  
 The standard minimum buffer width (200' on each side of the river) should be used downstream from the unnamed tributary in T23N R14W, S. M. Section 25.  
 A 100' buffer will be retained on the Red Creek upstream from the unnamed tributary in T23N R14W SM Section 25.  
 All parcels are subject to a 50-foot public access easement and 100-foot building setback from the ordinary high water line of all water bodies. Some water bodies may have staking setbacks or water frontage limitations.  
 Trail easements have not been verified and their actual location may differ on the ground. Not all existing trails may be shown. Labeling of these trails does not guarantee the existence of a trail or its use. It is intended as a research tool.  
 Staking is not allowed across any navigable water body.  
 Staking is not allowed around abandoned or unauthorized improvements, including structures or airstrips; a staking setback is required.  
 There are access easements along most parcel boundaries. Check the survey plats for additional information.  
 The area is subject to the Matanuska Susitna Borough Platting authority.
